Materials & Waste Management (MW)

- MW 3.1** Recycled Content (100% PET based fabric)
- MW 7.0** Low-Emitting Material (CDPH 01350 compliant)
- MW 7.1** Environmental Product Declaration (EPD)

wellcertified.com

01: Air quality Standards (No volatile substance, particulate matter and inorganic gases product)

Intent: To ensure a basic level of high indoor air quality.

75: Internally Generated Noise

Intent: To reduce acoustic disruptions from internal noise sources and increase speech privacy.

76: Thermal Comfort

Intent: To promote occupant productivity and ensure a sufficient level of thermal comfort.

Non-Residential Voluntary Measures

Section A5.405 Material Sources

A5.4054 Recycled Content.

Use materials, equivalent in performance to virgin materials with a total (combined) recycled content.

Note: Prihoda recycled duct is manufactured using 100% post-consumer recycled PET plastic bottle water bottles.

Section A5.409 Life Cycle Assessment

A5.409.3 Materials and System Assemblies

Select a minimum of 50 percent of materials or assemblies based on life cycle assessment of at least three of the impacts listed and one of which shall be climate change.

Note: Prihoda provides a third party 14001 (environmental impact management system) assessment
