

FAQ

Tailored Air Distribution

Question:

Can I buy spare parts for fabric ducting?

Answer:

Yes – each modular section of a fabric duct carries its own unique identification tag, making spare-part ordering fast and accurate.

/ Ordering spare parts for fabric ducts

Prihoda fabric duct systems use zip fastened modules, each labeled with a unique project number, manufacture date, and part code. When you need a replacement, simply reference the tag details (OP number and part number) to ensure an exact match.

/ Rapid traceability and support

With the identification tag information, Prihoda can quickly locate the original specifications and provide pricing and lead times for spare components. This streamlined process reduces downtime and ensures your HVAC system remains fully functional.
